Whole Child Policy:
Putting the Science of Learning and Development Into Practice
Speaker

Linda Darling-Hammond
President,
Learning Policy Institute

@LDH_ed
A Perfect Storm for Public Schools

Current Trends

- Declining enrollment
- Chronic absenteeism
- Learning “loss”
- Mental health challenges
- Mass shootings
- Students “acting out”
What Some are Urging Schools to Do

- Double down on test-based instruction
- Return to zero tolerance disciplinary exclusions
- Increase ‘safety’ via metal detectors, arming school staff, hiring more school security/police officers

- These strategies increase disaffection & dropouts and ultimately reduce safety and achievement
Principles from the Science of Learning & Development

- The brain is always developing as a product of relationships and experiences. The quality of those relationships and experiences matters greatly.
- Learning is social, emotional, and academic.
- Students’ perceptions of their own ability and their level of trust in their environment influence learning.
- Supportive, developmental relationships are the most effective antidote to trauma.

What Kinds of Schools are Needed?
Guiding Principles for Equitable Whole-Child Design

- Healthy Development, Learning, and Thriving
- Integrated Support Systems
- Positive Developmental Relationships
- Environments Filled With Safety and Belonging
- Rich Learning Experiences and Knowledge Development
- Development of Skills, Habits, and Mindsets
- Empowering
- Personalized
- Culturally Affirming
- Transformative
What Schools Can Do: Relationship-Centered Schooling

Positive relationships:
- Nurture healthy attachment
- Foster a sense of belonging & emotional security
- Have a protective effect
  - Increased responsiveness
  - Buffer the effects of adversity
Positive Relationships

- With students
  - Small family groups (e.g., advisories)
  - Community circles
  - Looping
- Among staff
  - Collaboration time
- With families
  - Family conferences
  - Home visits
What Schools Can Do: Environments of Safety & Belonging

Positive relationships:
- Nurture healthy attachment
- Foster a sense of belonging & emotional security
- Have a protective effect

Learning contexts:
- Communicate who or what is valued, rewarded, and trusted
- Affect conditions for learning
  - Can open the brain to learning and engagement
  - Can ameliorate identity threats
- Build pro-social orientations
Environments Filled with Safety and Belonging

- Shared values & routines
  - Community meetings
- Restorative practices
  - Time for relationship building
  - Conflict resolution
- Culturally-responsive
- Healing oriented practices
  - Calming activities
  - Trauma-informed supports
What Schools Can Do: Rich Learning Experiences

Positive relationships:
• Nurture healthy attachment
• Foster a sense of belonging & emotional security
• Have a protective effect

Rich learning experiences:
• Are relevant to students’ lives
• Pique student curiosity
• Include meaningful applications of knowledge
• Well-scaffolded
Rich Learning Experiences

- Inquiry-based learning
  - Project-based learning
  - Hands-on learning
- Scaffolding for Success
- Building on student knowledge and culture
- Feedback and revision
  - Formative assessments
What Schools Can Do:
Developing Skills, Habits, & Mindsets

**Developing skills, habits, and mindsets:**

- Enables students to engage in rich learning experiences
- Enhances students’ ability to manage cognitive, social, and emotional demands

Positive relationships:

- Nurture healthy attachment
- Foster a sense of belonging & emotional security
- Have a protective effect
Developing Skills, Habits, and Mindsets

Integrating opportunities for building:

- Self awareness and empathy
- Interpersonal skills
- Resilience & perseverance
- Sense of agency and
- Growth mindset
What Schools Can Do: Integrated Support Systems

Coordinated and readily available systems can:

- Mitigate the effects of adversity and prolonged stress
- Meet personalized needs and struggles

Positive relationships:
- Nurture healthy attachment
- Foster a sense of belonging & emotional security
- Have a protective effect
Integrated Support Systems

Build a multi-tiered system of support to enable:

- Universal supports
  - Relationship-building & collaboration structures
- Supplemental supports (Tier 2)
  - Specialists
  - Tutoring & extended learning
- Intensive interventions (Tier 3)
  - Service coordination
  - Partnerships
How can SoLD-aligned schools be built and sustained?

WHOSE CHILD POLICY TOOLKIT

What Is Whole Child Policy?

POLICY ELEMENTS
- Setting a Whole Child Vision
- Transforming Learning Environments
- Redesigning Curriculum, Instruction, Assessments, and Accountability Systems
- Building Adult Capacity and Expertise
- Investing Resources Equitably and Efficiently

RESOURCES & TOOLS
- State Policy Library
- Resource Library
- Related Initiatives
- Acknowledgments
- About the Whole Child Policy Table

This toolkit is designed to give state policymakers and education leaders the strategies, tools, and resources to advance whole child policy and systems change. A whole child education prioritizes the full scope of a child’s developmental needs—social, emotional, cognitive, physical, and psychological, as well as academic—to ensure that all children are able to reach their full potential. A whole child approach is built on the understanding that students’ education and life outcomes depend on their access to positive relationships inside and outside of school, a safe learning environment, and deeper learning opportunities.

The whole child approach builds on decades of research from the science of learning and development that defines the environments and experiences that children need to thrive. It also draws on the policy agenda set by the National Commission on Social, Emotional, and Academic Development, which brought together leaders from education, policy, research, business, and the military to make recommendations on how to ensure that students’ social, emotional, and cognitive development is centered in schools.

Shifting to a whole child education has far-reaching implications for our education system, providing a maste
Thank You!
