High-Impact Tutoring:

An Equitable, Proven Approach to Accelerate Learning

Susanna Loeb

Accelerating Learning Webinar

April 20, 2021

Pandemic interrupted learning and increased inequality in access and outcomes

Most students are falling behind, but students of color are faring worse.

Amount students learned in the 2019–20 school year, % of historical scores¹

● Schools with >50% students of color

⋮ All schools average

● Schools with >50% white students

McKinsey report based on assessment data from the Curriculum Associates i-Ready platform

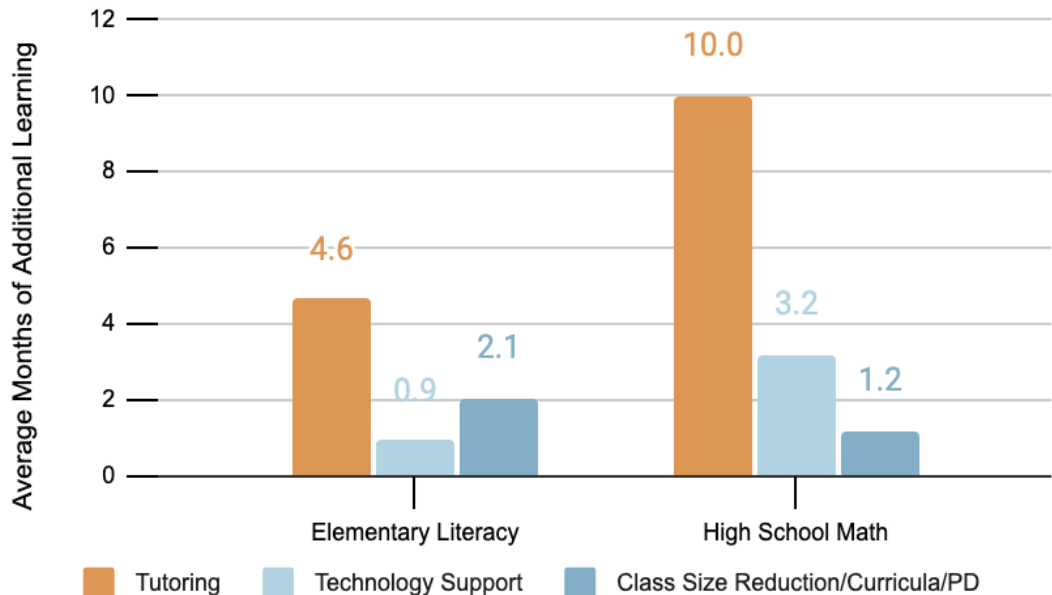

Tutoring has emerged as potential approach for addressing educational needs

Research: Substantial effects of high-dosage tutoring delivered in schools

Demand: Already the intervention of choice. US invested ~\$42 Billion 2020

Logic: Target students' needs, builds close relationships

Spillovers: Potential benefits for tutors and for the teacher pipeline

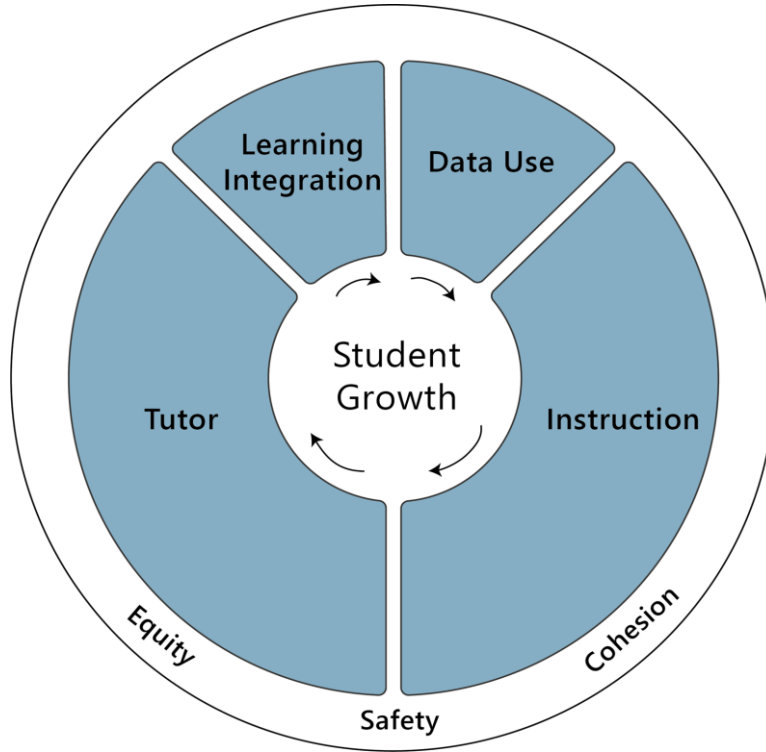

Not all tutoring is effective

No Child Left Behind Supplementary Educational Services

- Federally funded program that allowed low-income parents to enroll their child in a state approved tutoring program after school if their school was not making adequate yearly progress for two consecutive years.
- Not an equitable solution — participation at its highest was only approximately 23% of eligible students.
- Very little benefit for student learning, on average.
- The instances where SES positively impacted student learning tended to involve minimum dosage requirements, structured sessions, tutor coordination with schools, and more tutor experience (Heinrich et al., 2014).

What is High-Impact Tutoring? 7 Key Elements

Equity, Safety, Cohesion

High-Impact tutoring programs are grounded in Equity, ensure Safety of students and program elements and leadership work together creating a Cohesive well-run program.

High-Impact Tutoring: Tutor

Students work with a consistent tutor who is supported by ongoing oversight and coaching.

High-Impact Tutoring: **Instruction**

Tutoring sessions include a minimum of three sessions per week.

Materials are high quality and aligned with state standards.

High-Impact Tutoring: Learning Integration

High-impact tutoring is embedded in schools either during the school day or immediately before or after the school day.

High-Impact Tutoring: **Data Use**

Data informs tutoring sessions and program improvements.

Pandemic creates needs & opportunities

School disruptions remove some implementation barriers

- Schedules already in flux
- Open to solutions

Funding availability can overcome barriers to change

- Federal/state relief
 - Philanthropy
- ... embedding over time in core expenditures

Growing research base on tutoring to build standards

- Recent syntheses of deep research base

Better understanding of the infrastructure and policy needs to ensure quality

- Guardrails and information on quality
- Tools and support for implementation and program improvement
- Research for learning and improvement

New Organization designed to support local implementation

TOOLS: Tutoring Database

Tutoring Database

About

Tutoring Database

Adding a Program

Home / Tutoring Database

Filtered by Type of Service

- Tutoring Program (102)
- Other (49)
- Academic Intervention (48)
- Technology Platform (28)

Operating States

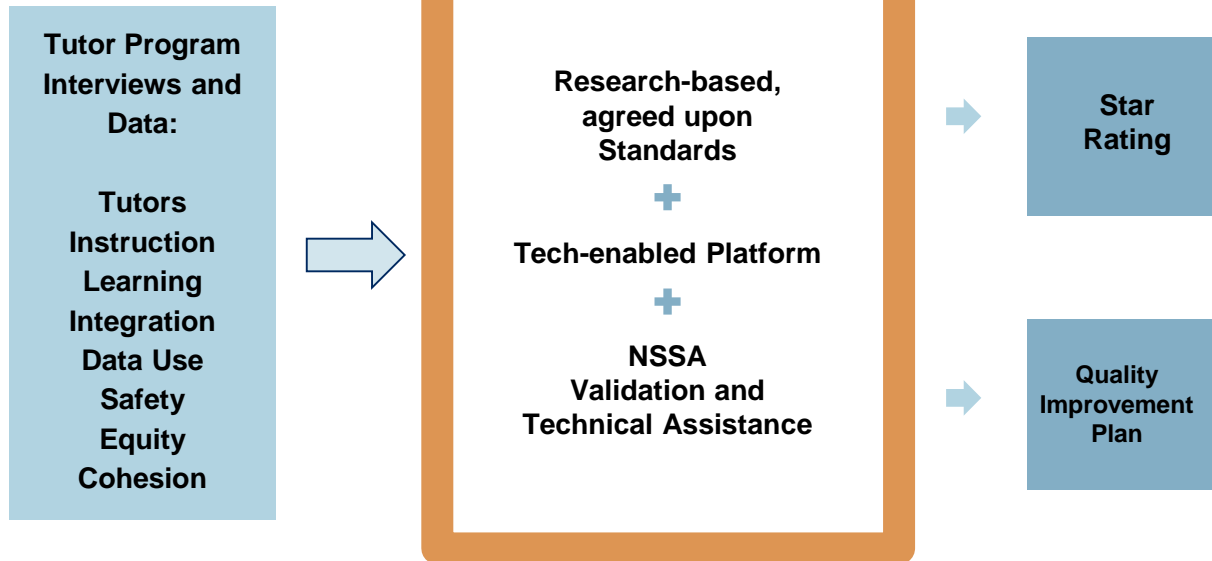

- Alabama (14)
- Alaska (13)
- Arizona (13)
- Arkansas (13)

This database includes an initial set of organizations that offer tutoring, technology platforms or academic interventions along with relevant information if available. Tutoring programs are those organizations that offer one-on-one and/or small group tutoring directly to students, either in-person, virtually, or through both modes of delivery. Interventions offer materials (e.g., an instructional scope and sequence, placement assessment, progress monitoring tools) that could be used within a tutoring program, but do not offer tutoring directly. This is not meant to be an inclusive list, but a starting point. We welcome additional organizations to join the database by completing [this form](#). The intended use for this database is for Districts, States or nonprofits to identify potential tutoring partners, for potential tutors to identify potential employers and for tutoring organizations to have a clearer understanding of the landscape, and to identify interventions that might be useful to their programs, if needed.

LBUSD at a Glance

STUDENT ENROLLMENT: 70,000 Pre-K to High School

STUDENT DIVERSITY

- 57.8% Hispanic
 - 12.2% White
 - 11.9% African American
 - 6.7% Asian
 - 6.4% Multiple Races
 - 2.8% Filipino
 - 1.1% Pacific Islander
 - 0.9% Decline to State
 - 0.2% American Indian/Alaskan Native
- ~~~~~
- 13.6% English Language Learners
 - 62.3% Socioeconomically Disadvantaged

High Quality Instruction in LBUSD

Comprehensive Literacy in LBUSD

Implementing California Standards: A Comprehensive Literacy Approach Grades TK-5

A comprehensive literacy approach relies upon intentional planning based on student needs and.....

- Application of ELA standards across all content areas
- Implementation of ELD standards for English Learners in both integrated and designated settings
- Implementation of the teacher practices within the *Understandings Continuum*
- Use of a variety of classroom structures including whole group, small group, collaborative and independent work

DRAFT June, 2019

Reading Recovery in LBUSD

- LBUSD has its own Reading Recovery training center
- Long term funding commitment (school site, central support)
- Embedded into a Response to Intervention system with a focus on high quality first teaching

Intensive Intervention Model in LBUSD

- Developed following two decades of Reading Recovery to expand the impact of Reading Recovery
- Placed in highest at promise elementary schools to advance comprehensive literacy approach
- Extended the role of coaching to build teacher efficacy and collective efficacy

Intensive Intervention Model in LBUSD

Figure 1. Three Pillars of LBUSD's Intensive Intervention Model

Reading Recovery I

- Early identification
- Short-term intervention
- Lowest-achieving first-grade students
- Full implementation

Classroom Coaching II

- Small-group instruction (differentiation)
- Focus in Grades K-2
- Collaborative coaching
- Accountability

Staff Development III

- Linking theory to practice
- Seamless instruction during whole group and small group and individual tutoring
- Build capacity

Learning,
Acceleration,
Supports, Enrichment
& Response
(LASER)

- Building capacity for high quality first teaching and implementation of a comprehensive literacy approach in every classroom
- Developing a research based approach to accelerating student learning through high quality intervention (small group, individual) systems, structures and programs (including tutoring)
- Strongly connecting student Reading Profile to instructional moves/actions
- Expansion of Reading Recovery
- Expansion of Intensive Intervention model

A graphic with the word "Questions" in white on a pink speech bubble, and "Answers" in white on a green speech bubble. There are four smaller speech bubbles around them, each containing a question mark: blue, orange, green, and red.

OUR CORE PROGRAM MODELS

Model	Default Modality	Students/Fellow Ratio	Students Per Fellow
Traditional	In person; all direct tutoring every day of the week	2:1 or 3:1	14
Blended Learning	In person; hybrid of direct tutoring + independent practice on math platform (alternating days)	4:1 (2 students in tutorial + 2 students on math platform)	24
Online	Online (Saga school site directors present at school); hybrid of direct online tutoring + independent practice on math platform (alternating days)	6:1 (3 students in tutorial + 3 students on math platform)	36

In addition to the models above, we design and test new program types to identify the best cost-effective models.

Overview of Federal Education Rescue Packages

- How much funding has the federal government provided?
- What can funds be used for?
- When do state/districts need to expend these funds?
- What are the "Maintenance" provisions districts and states must follow?

Federal Education Relief Funding

- Elementary & Secondary School Emergency Relief Funding (ESSER) - **\$189.5 billion**
- Governor's Emergency Education Relief Fund (GEER) - **\$4.3 billion** (\$3 billion in CARES & \$1.3 billion in CRRSA)
- **Other funding:**
 - **\$3 billion** - Special education
 - **\$5.5 billion** - Non-public schools
 - **\$800 million** - Students experiencing homelessness
 - **\$1 billion** - Tribal educational agencies, Native Hawaiians, and Alaska Natives, and the funding for Outlying Areas

Education Funding

Elementary & Secondary School Emergency Relief Funding (ESSER)

	Total	Per Pupil
CARES Act	\$13.2 billion	\$262
Coronavirus Response & Relief Supplemental Appropriations Act	\$54.3 billion	\$1,080
American Rescue Plan Act	\$122 billion	\$2,425
ESSER Total	\$189.5 billion	\$3,767

American Rescue Plan ESSER Funding

- **State Funding (10%) - \$12.2 billion**
 - Learning loss grants (5%) \$6.1 billion
 - Summer learning (1%) \$1.2 billion
 - After school (1%) \$1.2 billion
 - Administrative costs (Up to 0.5%) \$610 million
 - Remaining funding (2.5%) \$3.0 billion
- **LEA Funding (90%) - \$109.8 billion**
 - Learning loss programs (20%) \$22.0 billion
 - Remaining local funding (80%) \$87.8 billion

ESSER Allowable Uses

Funds can be spent on any educational expense allowed under:

- The Elementary and Secondary Education Act
- The Perkins Career and Technical Education Act
- The Individuals with Disabilities Education Act

Plus, a number of other specific allowable uses.

Strategies for Accelerating Learning

- Assessing what students need
- Effective teaching and learning
- Making the most of summer learning
- Utilizing intensive interventions: Tutoring
- Providing expanded learning time
- Establishing and expanding community schools

Other Possible Investments

- Provide students and staff with safe school reopenings that align with public health guidance
- Upgrade school facilities for healthy learning environments
- Stabilize and diversify the educator workforce and rebuild the educator pipeline

Timeline For Spending

	Funds Must be Obligated by:
CARES ACT	September 30, 2022
Coronavirus Response & Relief Supplemental Appropriations Act	September 30, 2023
American Rescue Plan Act	September 30, 2024

Note: Once funds are obligated SEAs and LEAs have up to five years to expend these funds.

Maintenance of Effort For FY 2022 & 2023

- States must continue to fund public elementary and secondary education and higher education at least at the proportional levels as the average annual funding over fiscal years 2017, 2018, and 2019.
- For example, if a state spent on average 26% of its total budget on k–12 and higher education between 2017 and 2019, then it must provide that same percentage of support in both 2022 and 2023.

Maintenance of Equity for States For FY 2022 & 2023

High-need school districts are protected from states' spending reductions in two ways.

- First, state per-pupil funding for the neediest half of districts cannot be reduced by an amount that exceeds the overall decrease in state funds.
- Second, per-pupil state funding for the 20% of districts with the highest percentage of economically disadvantaged students may not be reduced below pre-pandemic levels (FY 2019).

Maintenance of Equity for LEAs For FY 2022 & 2023

- LEAs shall not decrease either per-pupil funding (from state and local sources) or staffing levels for their high-poverty schools by an amount that exceeds districtwide reductions.
- The bill defines “high-poverty schools” as the 25% of schools serving the highest percentage of economically disadvantaged students in the LEA.

Funding Tips

- Think about braiding and blending new federal funding with current funding to achieve your goals
- Be prepared to be flexible with what funding you use to pay for different programs/activities/staff
- Try to use the funds for long-term investments
- Adjust your spending so you don't "fall off a cliff" once these funds are gone
